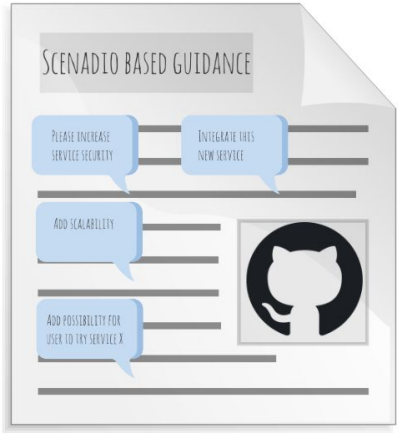
During hackathon in Rome try to capture materials for scenarios in cookbook	0%		SCB
Translate the scenarios to the cookbook	0%		SCB
Build first draft of cookbook based on materials from hackaton	0%		SCB
Deliver draft of cookbook in May	0%		SCB
Work on architectural recomendations	0%		SCB
Work on interactive guidence	0%		SCB
Test the current output during modernstats world workshop	0%		SCB
Deliver draft of arch guidance in July	0%		SCB
VC with WP2 members in August	0%		SCB,ISTAT,INSEE,SSB
Between july and december - add guidance and scenarios based on			

The deliverables

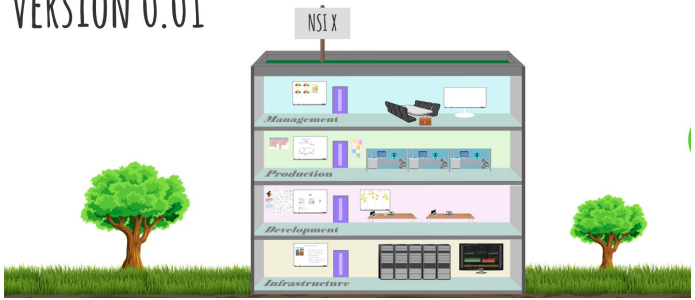
Software and integration architecture recommendations

Cookbook on integration & use



Interactive report/guidance with examples

Version 0.01



Next step

- Continue creating the structure in architectural recommendations
  - Check with the other parties during the Rome-sprint if structure looks good
- Check with WP3 which stacks will be implemented/worked on
  - To get a subset of examples for the cookbook

During the Rome-sprint

- •WP2 to “monitor” Track 1 and 2 to gather input for our “cookbook-deliverable” (deliverable D2-2) rather than to be part of the “hacking”
  -
